

DCSM Off-Ridge Vent

The **DCSM** Off-Ridge Vent comes with a built in one piece flashing flange with a 1" return and is available in many of our standard colors. This product has been tested, engineered, and designed for high wind areas, all DCSM products have FBC and/or HVHZ approvals, quality assurance etc. For more product information please contact our office.

Built in louvered side vents for optimal ventilation!

DETAILS:

- For tile, metal, and shingle roofing systems.
- Aerodynamic design reduces wind shear for high wind areas.
- Built in flashing 7" flange with 1" return.
- Louvered side vents for optimal roof ventilation.
- Available in 6", 12" and 36".
- All DCSM standard colors.
- Much larger cut out opening in decking for increased air flow.
- All DCSM products are made from **Galvalume** for greater corrosion resistance.

***Galvalume** sheet uses an aluminum (55%) - zinc (45%) alloy coating that offers greater corrosive resistance, higher temperature oxidation resistance, and higher heat reflectivity than standard galvanized steel.
